PREFACE

FOR this third volume I have been able to use, in addition to the Sinhalese Texts and MSS. of the first two, a transcript from the Burmese kindly made for me by Messrs. Maung Kyaw Win, M.A., and Lu Pe Win, M.A., both of Rangoon University College and assistants to Professor P. Maung Tin, at whose request the work was done as a labour of love, the whole being revised by the Professor himself. To these three I must render hearty thanks and express regret that the delay in printing my MSS. sent in years ago, but of course awaiting their turn, prevented my acknowledgement of their careful labours.

Secondly, I must thank Dr. Helmer Smith, of Stockholm, for kindly offering, through Mrs. Rhys Davids, to help me by giving extracts from the *Purāṇa-Tīkūs* of *Saṃyutta-Nikāya*, which I do not possess—an offer of which I could not make use, as my work had been finished and sent in some time before, and my distance from printers is prohibitive. I am consoled by the thought that my full index to this Commentary may prove of use to him in his great work, with Prof. Andersen, on the Pāli Dictionary.
